

This charming little fellow I've named my "Knightly Dragon". The scanner made lots of shadows but you can still see the assortment of needlework styles in the piece. For the embroidery stitches there are:

- Laid couched work (some call the Bayeaux Tapestry Stitch)
- Satin stitch
- Long & short blending stitch
- Reverse outline stitch (back-stitch)

Assorted cotton embroidery threads and metallic threads.

The background plus the figures are worked in Trapunto quilting and beads have been stitched at every grid to add interest.
